Description

Set off on your next adventure with the Sea Jay Nomad HS, part of Sea Jay's premium car topper range! Featuring 75mm higher sides, the Nomad HS offers extra safety and stability, making it the perfect choice for your next on-water exploration.

Designed with a unique V-nose entry, this boat effortlessly slices through swell and chop, while its flattened bottom towards the transom delivers exceptional stability when at rest. The smaller models in this range are ideal for loading onto a roof rack, camper trailer, or caravan. With a flat deck and forward handles off the gunwales, loading is a breeze—reducing the risk of damage to both your boat and your racking.

Built tough and designed for convenience, the Nomad HS is ready to take on your next journey. Get yours today and make every outing an adventure!
